9:30 am	Registration
10 am	Brunch
11 am	Shot Gun Start
3 pm	Cocktail Hour & Silent Auction
5 pm	Reception & Dinner

Meet Our Recipient, Christopher Schlenner

An energetic and smart 9 year old, Christopher suffers from a rare metabolic diagnosis of Congenital Disorders of Glycosylation. His diagnosis impacts him in every aspect of his development, in which he does not eat by mouth and uses a wheelchair for mobility.

He will soon be starting an experimental treatment as part of a drug trial at Mayo Clinic which makes these therapies even more imperative. It is hoped that the addition can also include an accessible bathroom to make meeting all of Christopher's selfcare and hygiene needs easier to meet.

To Help Christopher and Donate Today:
